Columbia University graduate with a B.A. in Computer Science and Environmental Science. Full-stack engineer with experience building production applications incorporating AI/ML, automated document processing, and report generation for pharmaceutical and cosmetic R&D workflows. Experienced across frontend, backend, and cloud deployment in a regulated healthcare environment.

RELEVANT EXPERIENCE

CLINCHOICE — **New York, NY**
Full Stack Software Engineer — *Jun 2024 – Present*

- Sole frontend developer across 5 AI-focused applications, owning all UI implementation, testing, and deployment
- Develop backend API features and database I/O operations across the same 5 projects
- Apply AI/ML to pharmaceutical and cosmetic R&D workflows, developing document-processing models using labeled clinical data and automating evidence compilation, report generation, and regulatory documentation
- Integrated company SSO portal end-to-end across UI authentication flows and backend user management
- Deploy applications and migrated CI/CD to Microsoft Azure container deployment, resolving reliability issues
- Mentored 5 interns in Git, React, and Python; lead daily Agile standups; demo applications to CEO and clients; and serve as administrator of team GitHub and Jira sites

CLINCHOICE — **New York, NY**
Innovation Technology Intern — *Dec 2023 – Jun 2024*

- Performed data preprocessing, cleaning, and labeling for AI/ML data analysis
- Led daily Agile standup meetings with up to 11 team members, interviewed 15 candidates, and conducted onboarding procedures for new hires
- Owned documentation in a regulated healthcare environment — established filesystem naming conventions and schemas, authored and reviewed documents to ensure audit readiness and compliance

VG SYSTEMS — **New York, NY**
AI/ML Intern — *Jun 2023 – Aug 2023*

- Spearheaded Agile development of an AI-powered application, using Kanban boards to manage tasks
- Integrated ChatGPT, Dall-E, and Microsoft Speech Service into a single product, independently handling design, code, and deployment

NIANTIC — **New York, NY**
Surveyor – Short Term Contract Position — *Mar 2023 – Apr 2023*

- Scanned objects for a 3D world map, enabling developers to tether AR experiences to physical locations
- Exceeded SLA for scans, thereby delivering data ahead of schedule
- Generated comprehensive bug reports to support software development
